When will you work? (How many hours are doable in your stage of life? Write it down, set the hours and commit to them.)

Who are you going to work with? (Who is going to help you? Do you need a nanny/babysitter? Do you need an assistant or marketing person?)

Where will you work? (You need a designated space for your job! What are the rules regarding your work and workspace? Decide what they are and let your family know.)

What are your goals? (Daily, weekly, monthly, yearly goals are SO important! Write them down and post them so you see them often!)

What is your why? (This is the ultimate goal of why you are doing what you are doing. KNOW THIS!)
